

**NOTES:**

1. This data is CDC's complete portfolio of energy investments as held at 31 December 2019.
2. It does not represent all investment activity over a period. For example, it does not include exited investments.
3. "Commitments" represents the amount that we have committed to invest in a particular company or project, these full amounts may not have been drawn down in full.
4. "NAV" represents our valuation of the entire sub-category as at 31 December 2019.
5. Start date is the date on which a particular relationship began with the investee company, it does not signify the year in which the total commitment was made. Commitments may have been made over a number of years.
6. Further information about our investees and the nature of our investment can be found at <https://www.cdcgroup.com/en/our-impact/search-results/>
